The 7 Best Stock Chart Patterns -- and 1 Bad One

Here's my personal feeling (not a textbook): On an intra-day chart, the Dark Cloud Cover and Harami are essentially the same patterns. I would not suggest spending precious day trading time splitting hairs of how you name this candle.. Similar to a traditional Harami, this pattern can work as a reversal, but it also can be equally neutral.

Continuation Chart Patterns. Pennant Chart Pattern; The pennant is a corrective/consolidating price move, which appears during trends. It resembles a symmetrical triangle by shape, as both are bound by trendline support and resistance lines. The difference is that pennants typically occur during a trend phase, while triangles can be formed during both trends and general consolidation periods.
