Audi 80 Service Repair Manual - Audi 80 PDF Downloads

We use service intervals to help us guess when this will be. The cap and rotor should be replaced annually or every 15-20,000 miles, or if they show a lot of nasty black burn marks at their contacts. There are many expensive or trick plugs out there. It is more important to have them not be worn out or poorly gapped!

CIS-E: Troubleshooting and tuning - Huw's Audi Garage

Today, it has been superseded by gasoline injection systems which thanks to electronics have been vastly improved and expanded in their functions. Since this point, the K-Jetronic has now become particularly important with regard to maintenance and repair. This manual will describe the K-Jetronic's function and its particular features. 4.

The cars were sold with the planned Bosch K-Jetronic fuel injection system. When increasing concern within the company over price and availability of fuel during the oil crisis of the 1970s became an issue of contention, smaller engines were considered in the interest of fuel economy. A push began for the development of a 3.3 L 182 PS (134 kW ...
