of the analyzed cities still do not have an integrated strategy.

Smart City Strategy Index: Vienna and ... - Roland Berger

Vien- na, a city of 1.74 million inhabitants, has a well-struc- tured smart city strategy. It also focuses on digitization in other governmental guidelines and directives, such as its strategic land-use plan and its transportation plan. The city lays out clear short-term, medium-term and long-term goals for digitization.

Smart city, smart strategy - Roland Berger

In our latest Think:Act publication "Smart city, smart strategy" we navigate technological complexity by shining the spotlight on 87 metropolises around the globe and looking at how cities are embracing the smart revolution - and the multi-million dollar market it has created. The survey results have taken us by surprise.

The result is a comprehensive picture enabling Roland Berger to compare different regions – and describe the opportunities for utilities in detail. Smart City is a collective term for holistic development concepts aimed at making cities more efficient, technologically advanced, greener and more socially inclusive.

Smart Cities: A big opportunity for utilities — Roland Berger

No problem; there's a smart city solution for each of these objectives. According to the 2019 Smart City Strategy Index (SCSI) published by global consultancy firm Roland Berger, successful smart cities tend to have one thing in common: a sound strategic approach. This ensures the integration of different strands and avoids ad hoc solutions.
