Your Immune System: Things That Can Weaken It

Where To Download Study Guide For Immune System

Getting sick when you're far from home is a drag. You'd give anything to crawl into your own soft bed and sleep, but you're stuck in a cookie-cutter hotel room feeling like a sick fish out of water. Well, it could be worse. You could be an astronaut on the way to Mars -- a really long way from mom's chicken soup.

Your Immune System... In Space | Science Mission Directorate

The immune system is supported by different defense mechanisms in the body that prevent disease and bacterial pathogens from developing in the body. An immune response occurs when the body recognizes these pathogens and creates an action against them. Harmful molecules that are recognized and elicit an immune response are called antigens.
