Pentax introduced the Super A (or Super Program in North America) in 1983. It was accompanied by a new line of K mount lenses designated Pentax-A (K A) whose "A" lock on the aperture ring permitted the body to set the f/stop for programmed and shutter-priority autoexposure modes. The camera can also be used in aperture priority AE and metered manual exposure, and has two flash modes (TTL auto ...

The ME Super was a very popular camera in the early 1980s when I was in college. I remember my college buddy Greg Foroglou going off about how he just got a new ME Super, not to be confused with the older Pentax ME. The ME Super adds manual exposure, a faster shutter and a dedicated flash contact to the older ME.

The Myth of the Super Programmer. I received an email this past

## Online Library Super Program Manual

week that disturbed me. Basically the author of the email inferred that most of the topics I talk about in my blog posts and Pluralsight videos are relatively easy topics, but that I had hypocritically suggested that interviews should be hard and should be designed for “real programmers” or super programmers.
