This is 2015. A party on a westside roof, just before midnight. Some Mia or Mina or throwing it, the white girl with the jean jacket and the headband and the two-bumps-of-molly grin, flitting from friend circle to friend circle, laughing loudly and refilling any empty cup in her eyeline from a bottomless jug of sangria, Maenad Sicagi. There are three kegs, a table of wines and liquor, cake and ...

It's hard to not exaggerate just how bad Venus is. Seriously, imagine in your head what the worst possible planet might be, and Venus is worse than that. Let's start with the atmosphere .

### How Venus Turned Into Hell, and How the Earth Is Next | Space

Virgo Venus people love to problem-solve, and fittingly, seek a partnership that is based on reciprocity. Virgo's earthy energy is practical and organized, so when fused with sensual Venus, this...

### Venus in Your Birth Chart: How the Planet of Love Affects ...

Similar in structure and size to Earth, Venus spins slowly in the opposite direction from most planets. Its thick atmosphere traps heat in a runaway greenhouse effect, making it the hottest planet in our solar system with surface temperatures hot enough to melt lead. Glimpses below the clouds reveal volcanoes and deformed mountains.

### In Depth | Venus - NASA Solar System Exploration

Venus retrogression happens less frequently as compared to Mercury retrogression; it occurs once in about every 18 months. The Venus Retrograde lasts for about a period of 40-43 days. The term retrograde doesn't literally imply that Venus starts moving backwards; it is just a phase wherein Venus corrects its motion and gets back to its normal pace.

### What is Venus Retrograde and how does it affect us?
